OBJECTIVE

Junior JavaScript Developer

TECHNICAL SKILLS

- JavaScript, TypeScript, ES6+
- React, Vue.js
- Webpack, SASS
- Node.js, Express
- MongoDB, PostgreSQL
- Git

LANGUAGES

- English – Intermediate
- Russian – Native Speaker

EDUCATION

Bachelor | Polotsk State University
09/2017 – PRESENT
Faculty of Information Technology

SUMMARY OF QUALIFICATION

Now I focused on Frontend developing with JavaScript frameworks and libraries such as React.js, Vue.js. Sometimes wondering Backend side with Node.js using Express.

To non-commercial experience I can attribute SPAs on React and Vue.js, REST API on Node.js with MongoDB and JWT authorization. Furthermore, I developed Discord musicbot and support it. I use TypeScript for writing code and Jest Testing Framework for writing unit tests.

In the beginning I studied basics of HTML, CSS, JavaScript and PHP with MySQL. At the same time, I made a site for practice using those technologies.

Also, I built NPM package. It is time converter that converts Martian Time into Terrestrial Time. It based on the old site, there I've got convertion logic.

Since I've been started studying at university I start learning C, C++, pillars of OOP and subjects like Data Structures and Algorithms.

ABOUT ME

- I have mainly abstract thinking and can look at the problems from different sides. Moreover, use critical thinking, scientific method, metaphors and analogies.
- I easily studied sciences such as Physics and Chemistry in school and college.
- Also I very love astronomy and astrophysics.
- It is easy for me to get required skills.
- I prefer a healthy lifestyle like biking, jogging and so on, also I am free of the bad habits.
- My hobbies are playing music, singing, role-playing games.
